AWARDS 2023**

Call for Applications

**Recognising champions of biodiversity
conservation in India**

The India Biodiversity Awards is a joint initiative by the Ministry of Environment, Forest and Climate Change, National Biodiversity Authority and the United Nations Development Programme. It is an innovative mechanism to identify and recognize the efforts of individuals, communities and institutions working towards biodiversity conservation, sustainable use of biological resources, access and benefit sharing and biodiversity governance.

The first India Biodiversity Awards were jointly announced by the MoEFCC and UNDP in 2012 at the high level segment of the Eleventh meeting of Conference of Parties to the Convention on Biological Diversity. Following its success, the second, third, fourth and fifth India Biodiversity Awards were held in 2014, 2016, 2018 and 2021 respectively in partnership with the National Biodiversity Authority. Over 750+ good cases of biodiversity conservation, sustainable use, access and benefit sharing and biodiversity governance were documented through the award process. The awards were institutionalised by the National Biodiversity Authority in 2017. UNDP continues to serve as Knowledge Partner.
